YAMALUBE®

Others simply follow industry standards.
WE PREFER TO SET THEM.

In the early 1960s Yamaha’s vehicles were dominating the motorsport game with top performance, but the quality lubrication required to foster that performance didn’t exist—essentially stifling the peak potential of Yamaha machines. Leo Lake, the National Service Manager for then Yamaha International Corporation, noticed and took action.

In 1967, after testing hundreds of lubrication combinations, Leo developed a blend that became the iconic Yamalube brand the world knows today.

Yamaha now warrants the use of Yamalube in all of its engines with the Yamalube Advantage™ engine lubrication limited warranty, covering 20 years or 5,000 hours or 100,000 miles (whichever comes first).

To date, Yamalube remains the only oil built around the stringent demands, operating characteristics, and applications of not only Yamaha engines, but all powersport engines. With over 50 years of success, we still strive to make the best even better.
