Whether you’re reeling in a big catch or scooting over to the park, the new Drive line of Personal Transportation Vehicles provides superior precision engineering and technological innovations. Whatever challenges your day may hold, you’ll have plenty of strength to tackle them.
A HISTORY of MOVING DREAMS forward

With Yamaha, every challenge is an opportunity for adventure. Snowmobiles, generators, scooters, ATVs, personal watercraft vehicles and more.

With such a long history of success in a variety of industries, you can trust Yamaha to continue innovating with new technology that creates unforgettable moments in the lives of our customers.

With 60 years of experience building everything from golf cars to snowmobiles, making Yamaha one of the most recognized and respected brands in the world.

RELIABILITY

1975
YG-292 MODEL GOLF CAR
Yamaha’s first golf car. This powerful unit was compact and lightweight, and served as the bedrock for more things to come.

1985
G-2 MODEL GOLF CAR
The first golf car to feature a 4-stroke, overhead valve engine and an injection molded, plastic front and rear body.

1996
G-19 MODEL (UL TIMA) GOLF CAR
Our first 48-volt electric golf car featured innovative roll-away safety protection and regenerative braking.

2006
YDR (THE DRIVE®) PERSONAL TRANSPORTATION VEHICLE
The Drive was introduced to the world with striking new features designed to radically change people’s perception of the golf car.

2016
DRIVE2 GOLF CAR
The Drive2 lineup brought forward all the best features from The Drive but also introduced QuieTech EFI – a gas car that’s almost as quiet as an electric. Additionally, QuieTech EFI included the first Independent Rear Suspension ever to be found on a golf car.

With such a long history of success in a variety of industries, you can trust Yamaha to continue innovating with new technology that creates unforgettable moments in the lives of our customers.

With 60 years of experience building everything from golf cars to snowmobiles, making Yamaha one of the most recognized and respected brands in the world.
At Yamaha, we’re innovating with the modern driver in mind, and we’ve created something completely new — the Drive². With newly designed LED headlights, and an automotive style dash with standard USB ports, we’ve thought of everything you could want or need on the go.

**The best car JUST GOT BETTER**

At Yamaha, we’re innovating with the modern driver in mind, and we’ve created something completely new — the Drive². With newly designed LED headlights, and an automotive style dash with standard USB ports, we’ve thought of everything you could want or need on the go.

**The best car JUST GOT BETTER**

At Yamaha, we’re innovating with the modern driver in mind, and we’ve created something completely new — the Drive². With newly designed LED headlights, and an automotive style dash with standard USB ports, we’ve thought of everything you could want or need on the go.
With new body lines, exciting new colors, and significant performance improvements, the all new Drive² looks and feels better than any Personal Transportation Vehicle we’ve ever built.

All the features A MODERN DRIVER could WANT

- **INNOVATIVE AND BOLD**
- **NEWLY REDESIGNED PADDED STEERING WHEEL**
  Designed for more comfort and better handling.
- **CLIMAGUARD™ TOP**
  Features a double rain channel, clog-proof downspouts, and still has the widest, longest coverage area in the industry.
- **FRONT SUSPENSION**
  Fully independent front suspension for maximum comfort.
- **REAR FOLD-DOWN SEAT**
  When you need to carry cargo instead of people, the rear-facing seat flips down to create a 200lb capacity storage. Available in tan or black.
- **STORAGE BIN WITH NO-SLIP MAT**
  34% larger to keep more valuables in place.
- **AUTOMOTIVE STYLE DASH**
  Our newly designed dash has large, dual-sized cup holders, room for more items like snacks and mobile devices, and comes standard with two USB ports.
- **TWO USB CONNECTIONS (STANDARD)**
  To help drivers and passengers maintain power and stay charged, built right into the dash.

MODERN COLORS

- Bluestone
- Rich Brown
- Onyx
- Sandstone
- Moonstone
- Rich Brown
- Aqua Blue
- Glacier
- In-molded Color
- Metallic Paint

We won’t stop until we’ve come to the best solution for our customers, and that usually means the old industry standard isn’t quite good enough. That’s why we decided we could do better than halogen. Our personal transportation vehicles come standard with LED headlights and an optional LED front logo for a brighter ride. Our lights are more powerful with less drain on your batteries, and deliver a 2-3 times wider field of vision than our competitors, so you can enjoy the ride worry-free, even after the sun goes down.
A gas car that is **ALMOST AS QUIET as an ELECTRIC**

Our Personal Transportation Vehicles take the effort out of errands. The Drive² handles like a dream and makes even short trips fun! We developed our new QuieTech EFI technology to create a quieter, more fuel-efficient ride, so you can spend less money on fuel and more on doing the things you love.

**261 MILES**
**AVERAGE RANGE BETWEEN FILL-UPS**

**45 MPG**
**UP TO 23% BETTER FUEL ECONOMY THAN OUR COMPETITORS**

*Independent laboratory testing in a fleet environment by Transportation Research Center, Inc. 2015, on model year 2016 cars.

The new QuieTech EFI boasts the lowest decibel output of any gas car, and features the industry’s first ever Independent Rear Suspension in a personal transportation vehicle. These innovations will give you plenty of quiet time, and quality time, when you’re on the go.

**QUIETECH EFI. EVERYTHING ELSE IS JUST NOISE.**

**NOISE LEVEL**

* Decibel reading from 25 feet at constant speed on paved cart path for 2016 fleet models.
It’s **ALL ABOUT the JOURNEY**

Whether you want a Personal Transportation Vehicle for riding around the neighborhood with friends and family, or to climb hills without breaking a sweat, the silky smooth acceleration of the all-new PowerTech AC PTV will allow you to enjoy the journey as much as the destination.

---

*Based on the averaging of two completed separate tests on two batteries for each brand.*
OUR ONLY QUESTION
FOR YOU IS REFILL
OR RECHARGE?

With our quiet gas cars boasting a 261-mile range and our electric cars wielding an industry-leading 6.7 horsepower motor, making a decision between the two simply comes down to preference. Either way, the choice is yours.

QUIETECH EFI

Our QuieTech EFI cars, now equipped with Independent Rear Suspension, are the quietest, most comfortable on the road. And if you’re worried about emissions, don’t be! Our gas cars feature the lowest fuel emissions around, and with over 60 years of gas motor manufacturing experience under our belts, you can trust the dependability and performance known to Yamaha owners around the world.

- Yamaha exclusive QuieTech technology
- Independent Rear Suspension
- 12.8% more miles to the gallon over the competition – 45 MPG*
- Yamaha-built engine
- Industry-leading fuel economy
- Fewest emissions and up to 76% fewer pollutants than competitors*

POWERTECH AC

PowerTech AC cars prioritize energy efficiency while offering all the power you need - rapid acceleration, smooth uphill climb, and exceptional battery strength and endurance. You can’t go wrong with PowerTech AC because our battery power is synonymous with horsepower, and efficiency is our middle name.

- PowerTech AC Drive
- Toyota Industries-built motor controller unit
- Reliability and proven performance
- Cradle smooth suspension system
- Industry-leading T-875 Trojan batteries come standard
- Best hill-climbing ability
- Yamaha-built charger
